

STAR² CENTER

REGIONAL WORKSHOP

As part of a state/regional Primary Care Association (PCA) conference, Regional Training Workshops are designed to provide personalized training for recruitment and retention challenges for health center HR and administrative staff. This is a hands-on workshop to evaluate workforce programs, identify specific areas of intervention to improve those workforce programs, and receive tools and resources to assist with next steps.

July 2016

BEFORE THE WORKSHOP	One representative from each organization will be required to complete the STAR ² Center online self-assessment tool (so that the training can be customized to your needs)
THE LANDSCAPE	An overview of available resources, how to use the data profiles, national data, and state and regional workforce trends.
IN-DEPTH SUBJECT MATTER	A content expert will lead an in-depth training on a specific aspect of recruitment and retention identified through a review of the data profiles and Self-Assessment Tool submissions.
INDIVIDUAL TA & SOLUTIONS	Participants will be divided into work groups based on their identified challenges to engage in peer learning and guided discussion.
AFTER THE WORKSHOP	Next steps and available assistance through the PCA and ACU. A brief report for the PCA capturing discussion from the training and detailing trends, specific suggestions, and next steps from STAR ² Center staff

Logistics

- ✓ 4 hour workshop, approximately 40 attendees. Details negotiable to fit your needs.
- ✓ ACU will subsidize costs for preparation, consultants, and travel.
- ✓ PCAs are expected to handle registration and provide a room with A/V set-up.
