

## **Staff Satisfaction Surveys**

- 1) What conversations have you had about implementing staff satisfaction surveys?  
What are the roadblocks?
  
- 2) What other strategies do you use to assess clinician satisfaction?
  
- 3) Do you think staff satisfaction surveys could be useful at your health center? Why or why not?
  
- 4) Who would need to buy into this idea? How can you engage those people?
  
- 5) What information or resources does your leadership need to be able to act upon any needs identified through the survey?
  
- 6) Who else can you work with to develop a feedback system at your health center?
