STAR²CENTER
SOLUTIONS TRAINING AND ASSISTANCE FOR RECRUITMENT & RETENTION

**association of clinicians for the underserved**

Individual Data Profiles & Technical Assistance

The Association of Clinicians for the Underserved (ACU) has developed individual recruitment and retention profiles for each Health Center Program grantee and FQHC Look Alike designed to serve as a self-evaluation tool. These profiles draw on a diverse collection of data sets and are designed to paint a picture of the workforce environment at each Health Center. Health Center staff are encouraged to review their Data Profiles and the supplementary materials to identify specific strengths and challenges as well as national workforce trends.

Individualized Technical Assistance (TA) is available for Health Centers that would like to discuss their recruitment and retention challenges. Resources are also available for on-site TA, supported by STAR² Center funding and a consultant pool.

The STAR² Center is a project of the **Association of Clinicians for the Underserved**
