

Data Profile Review Worksheet

Individual Profile

- 1) Which data points have blue flags?

- 2) Do you have any information or context to explain the blue-flagged data points?

- 3) What other data points are close to being outliers compared to national benchmarks?

- 4) What problems or opportunities might your health center have based on this data profile?

State Aggregate Report

- 5) What data points are most frequently flagged for all health centers in your state?

- 6) What major challenges or opportunities might affect that data trend in the region?

- 7) How do the blue flags on your individual profile align with the trends on the aggregate report?
