

# UpSkillMA

## How Does It Work?

UpSkillMA provides practicing Medical Assistants with next level training and expertise to excel in high-performance primary care teams. Students learn at their own pace through an online learning platform that is user-friendly, secure and HIPAA compliant.

## Our Modules

### Interprofessional Team-Based Care

- Gain an understanding of team-based care
- Develop the knowledge, skills and attitudes MAs need to excel as part of an interprofessional team

### Quality Improvement & Making Data Count

- Gain an understanding of concepts related to quality improvement in health care
- Learn how MAs collect and use data to support the delivery of high quality and value-based primary care

### Immunizations

- Enhance your communications to the patient about the importance of vaccines
- Reinforce skills related to vaccine schedules, proper storage, and effective administration

### Professionalism & Effective Communication

- Understand legal and ethical issues experienced by MAs in their work
- Develop effective communication, time management, and teamwork skills required for success as an MA

The Weitzman Learning Academy, a program of the Weitzman Institute and Community Health Center, Inc. is transforming healthcare practices across the nation through innovative and accessible interventions that promote knowledge, confidence, continuous process improvement, and sustainable strategies.

## How Will UpSkillMA Benefit my Health Center?

### Through UpSkillMA, traditionally trained MAs will:

- Expand their professional scope of work
- Become more integrated and integral team members
- Learn to act as change agents in their health centers
- Gain skills that will assist them in their ongoing career development

### Through UpSkillMA, health centers will:

- Gain MAs better prepared for organizational changes and payment reform
- Enhance their ability to deliver patient centered, team-based care in a value-based environment
