# WEBINAR GUIDELINES

- Mute yourself unless speaking
- Be as present as possible
- Listen deliberately
- Share generously
- Think outside the box
- Be gracious to one another
- Let us know if you are having any tech issues or need support
- Enjoy your time with colleagues!

# Clemson Turregano Ph.D. CEO and Founder, Global Leadership Services

Clemson seeks to enable leaders for a better world. Informed by his decades as a military officer and leadership developer, his desire is to effectively balance the art and science of leadership with education and reflection in a safe environment. Training on six contents across over 30 countries and with hundreds of different organizations provides a broad foundation for cultural approaches to leadership and mission accomplishment.

Leadership is a multi-faceted discipline and Clemson integrates his numerous assessment and experiential certifications, along with his executive facilitation and coaching insight into unforgettable experiences. A practicing academic, he is currently serving as the serving Professor of Leadership Practice at The Citadel, the Military College of South Carolina, where he is pursuing research into character and values foundations of leadership.

# Creating Resilient Health Care Organizations

# Understanding Resilience

A definition

Resilience is understood as the individual human capability to cope with crises, losses or hardships without negative consequences ([Tugade and Fredrickson 2004](#)).

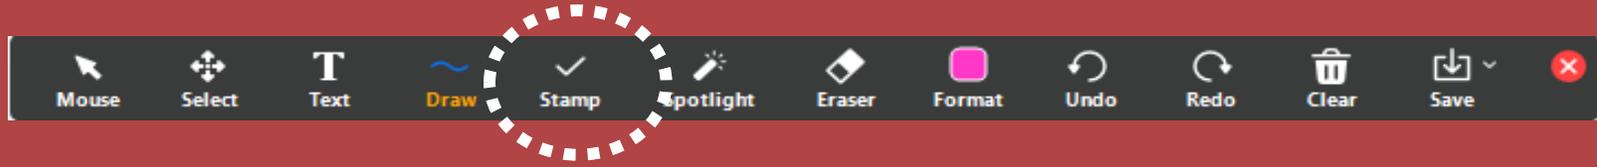

View Options > Annotate >

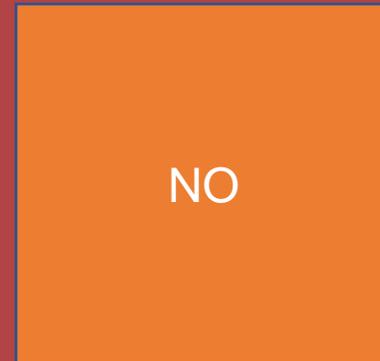

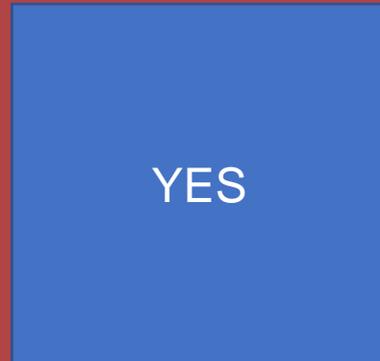

# What is your favorite resilience tactic?

**Does your organization support this behavior?**

**Why or Why Not?**

# The flip side: **BURNOUT**

Burnout describes a human response to chronic emotional and interpersonal stress at work, defined by exhaustion, cynicism, and inefficacy ([1](#)).

- The three main dimensions of burnout assessed using the Maslach Burnout Inventory (MBI) include emotional exhaustion, depersonalization, and a sense of low personal accomplishment.

<https://ajp.psychiatryonline.org/>

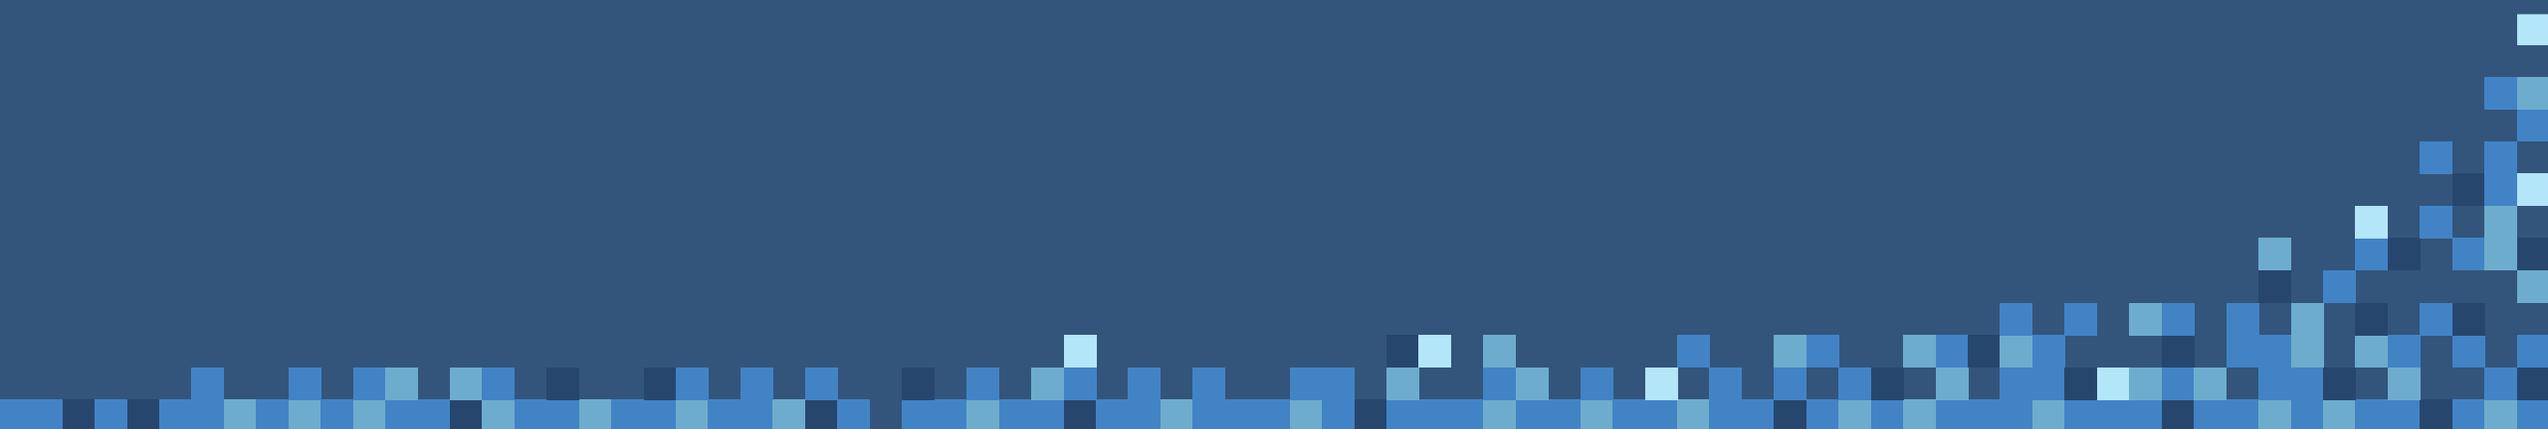

# AGENDA: Creating Resilient Health Care Organizations

- Why this is important: The current situation with resilience and why it is a challenge.
- 5 Steps to more resilient organizations
  - What Organizational leaders need to do to create a culture of resilience
  - How Organizational Leaders might organize to make this a reality
- What if: Open discussion on questions and making this happen in your organization

**Why this is important**

# The COVID Mental Health Impact

Percentage of Health Care Workers Experiencing...	
Stress	93%
Anxiety	86%
Frustration	77%
Burnout	76%
Overwhelmed	75%

Changes over the last three months	
Emotional Exhaustion	93%
Trouble with Sleep	70%
Physical Exhaustion	68%
Work Related Dread	63%
Appetite Issues	57%

Stamp the ones you are familiar with...

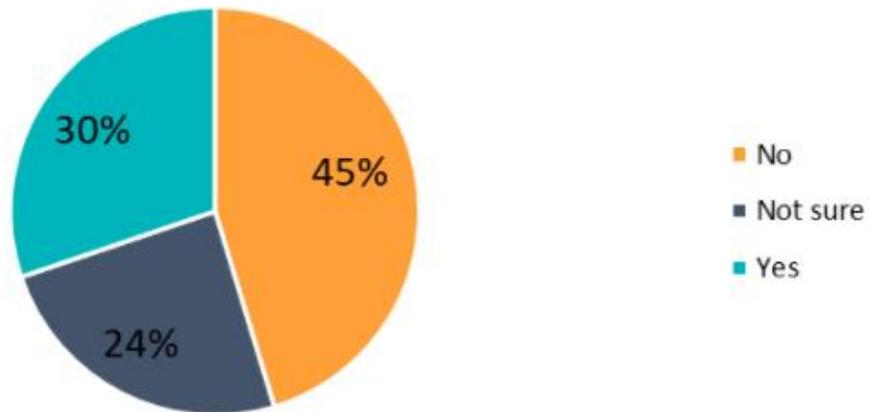

From June-September 2020, MHA hosted a survey on [mhascreening.org](https://mhascreening.org) to listen to the experiences of healthcare workers during COVID-19 and to create better resources to help support their mental health as they continue to provide care. <https://mhainternational.org/mental-health-healthcare-workers-covid-19>

# The COVID Mental Health Impact

- Emotional Support for Nurses

Among Nurses: Do you feel like you have adequate emotional support?

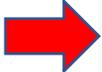

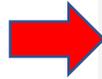

<https://mhanational.org/mental-health-healthcare-workers-covid-19>

# The COVID Mental Health Impact

From whom do you receive emotional support? Check all that apply.

	Count	Percentage
Family	634	56.66%
Friends	593	52.99%
Significant other	437	39.05%
Same level co-workers	430	38.43%
Supervisor	171	15.28%
Therapist	169	15.10%
No one	136	12.15%

<https://mhanational.org/mental-health-healthcare-workers-covid-19>

# The COVID Mental Health Impact

What are your top three work-related stressors over the last three months? Check all that apply.

	Count		Percentage
Uncertainty about when things will settle down/return to normal	678	✓	60.59%
Burnout	599	✓	53.53%
Heavy/increased workload	544	✓	48.61%
Concern of getting sick myself	484		43.25%
Concern of spreading COVID-19	396		35.39%
Insufficient communication from leadership	337	✓	30.12%
Insufficient PPE	289	✓	25.83%
Working too many hours	271	✓	24.22%
Job security/employment status	253	✓	22.61%
Insufficient training	142	✓	12.69%
Distress about how to effectively treat COVID-19 patients	136		12.15%
Inappropriate role designation	127	✓	11.35%
Working at a new location	121	✓	10.81%

Please place a stamp in the areas an organization might make a difference

# The Health Community Resilience Challenge

# What Leaders Can Do How Leaders Might Act

# What leaders need to do.

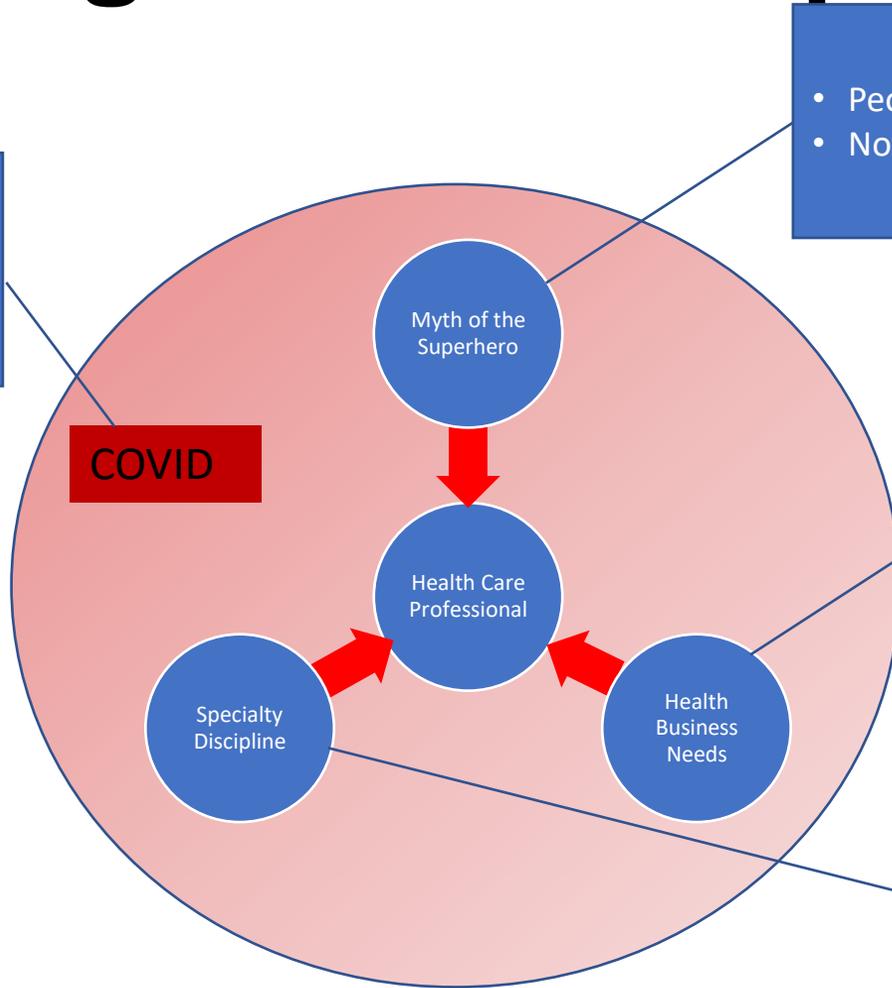

Open wide and say AAAAAA.....the 5 As.

1. Acknowledge the REAL problem – not COVID, but the three other contributors.
2. Accept the need to do something about resilience in the organization and why.
3. Adapt and transition, holistically.
4. Act as role models and recognize others doing the same.
5. Allow the organization to transition.

<https://www.shrm.org/resourcesandtools/hr-topics/employee-relations/pages/10-tips-for-changing-your-companys-culture>

# Acknowledge the REAL problem

- Accelerator
- Not the problem
- Creates problem transparency
- Demands Action

- People working hard, not smart
- Not sustainable

- Policy as excuse, not solution
- Teamwork issues
- Poor engagement

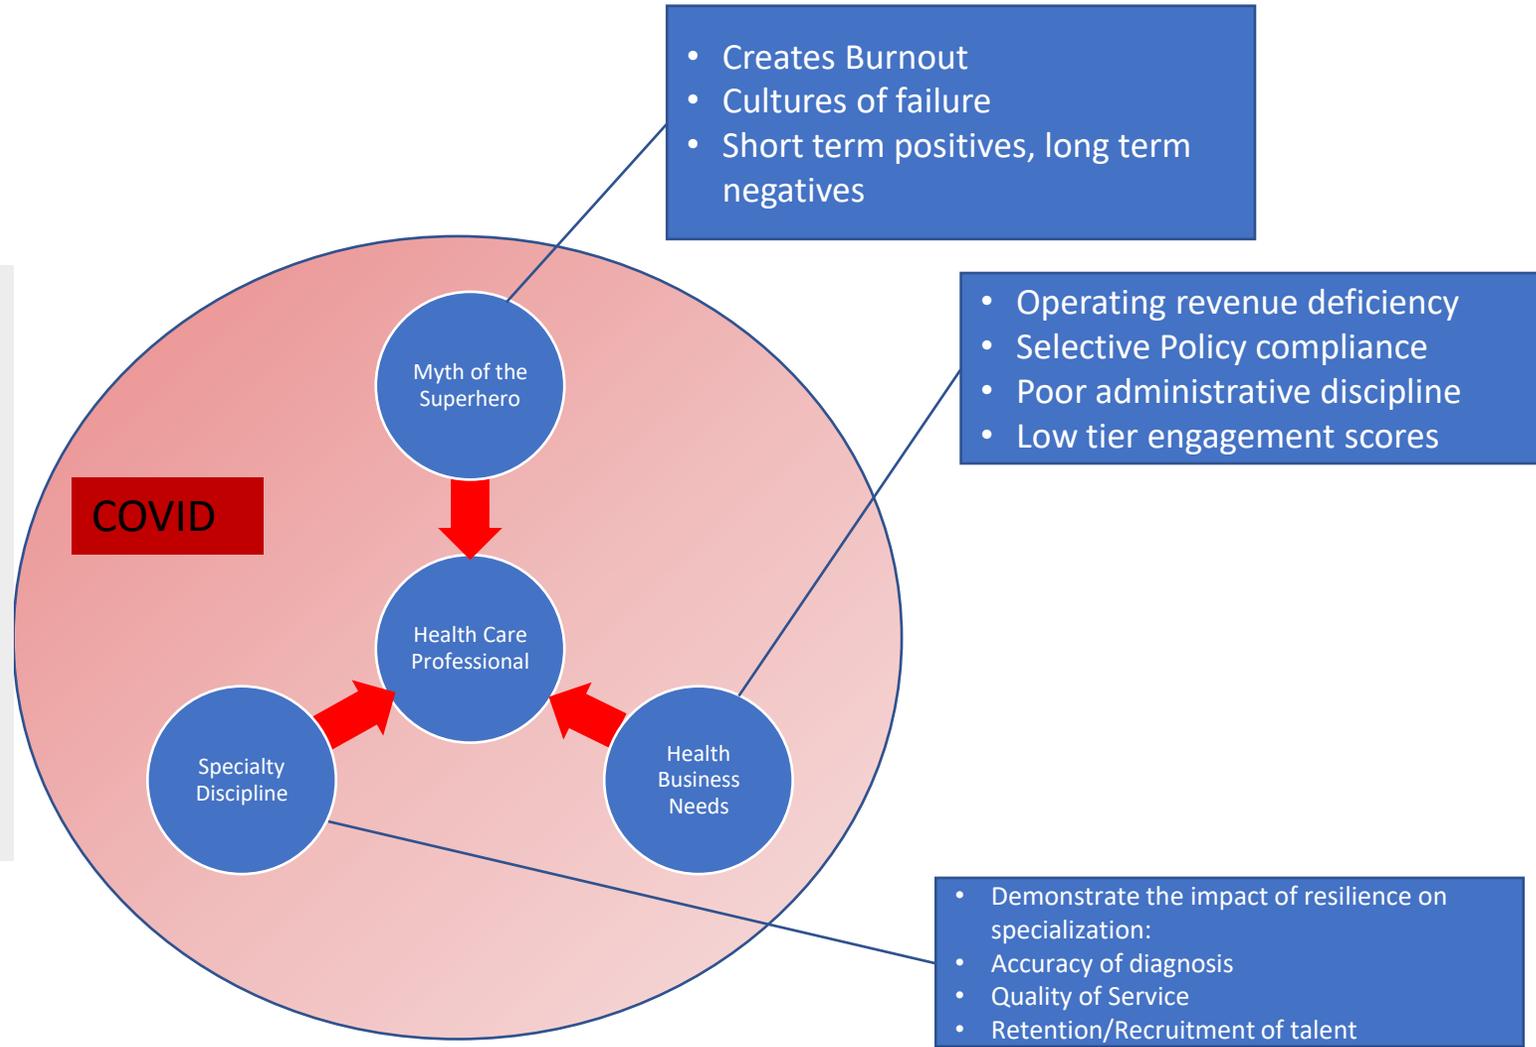

- Reinforce functional silos
- Lack of empathy
- Burnout

# Accept the need to do something and why...

## What to do:

- Engagement Surveys
- Revenue reviews
- Accountability Audits
- Level Appropriate culture forums
- Department Head forums
- Integrate resiliency into organizational strategy

# Adapt and Change ≠ Transition

Change	Transition
<ul style="list-style-type: none"><li>• Situational</li><li>• Physical</li><li>• Visible</li></ul>	<ul style="list-style-type: none"><li>• Process</li><li>• Psychological</li><li>• Invisible</li></ul>
<ul style="list-style-type: none"><li><input type="checkbox"/> New Procedure</li><li><input type="checkbox"/> New Boss</li><li><input type="checkbox"/> New Team</li><li><input type="checkbox"/> New Learning</li></ul>	<ul style="list-style-type: none"><li><input type="checkbox"/> What you see in the hallways</li><li><input type="checkbox"/> What you hear in the breakrooms</li><li><input type="checkbox"/> What you feel in the meetings</li></ul>
C'mon team, we are going to improve resilience!!	I'm not pulling an extra shift this week because I need some time at home....
<b>Change Management</b>	<b>Change Leadership</b>

Must have BOTH

# Act as Role Models and recognize others doing the same

BOOST and Find 'Your Healthy...'

Used by permission from Zespri Kiwifruit

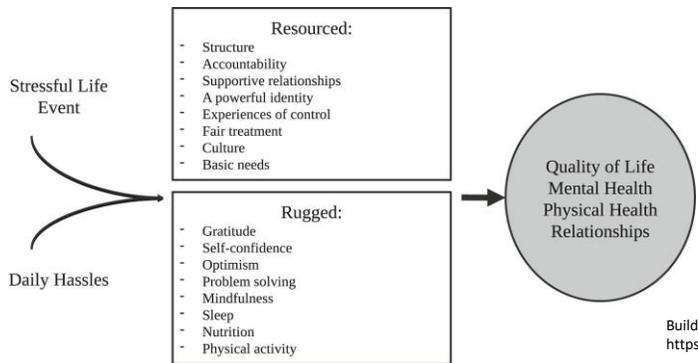

How did you BOOST today?  
I need to BOOST – let's walk and talk...  
What's 'your healthy...'

BURN BRIGHT and don't BURN OUT

Built 'Burn Bright' into meetings.  
Created 'resiliency spaces' in clinics/offices.

Test implemented in High COVID areas of Italy

©Center for Creative Leadership

Building resilience for healthcare  
<https://onlinelibrary.wiley.com/doi/full/10.1002/smi.3085>

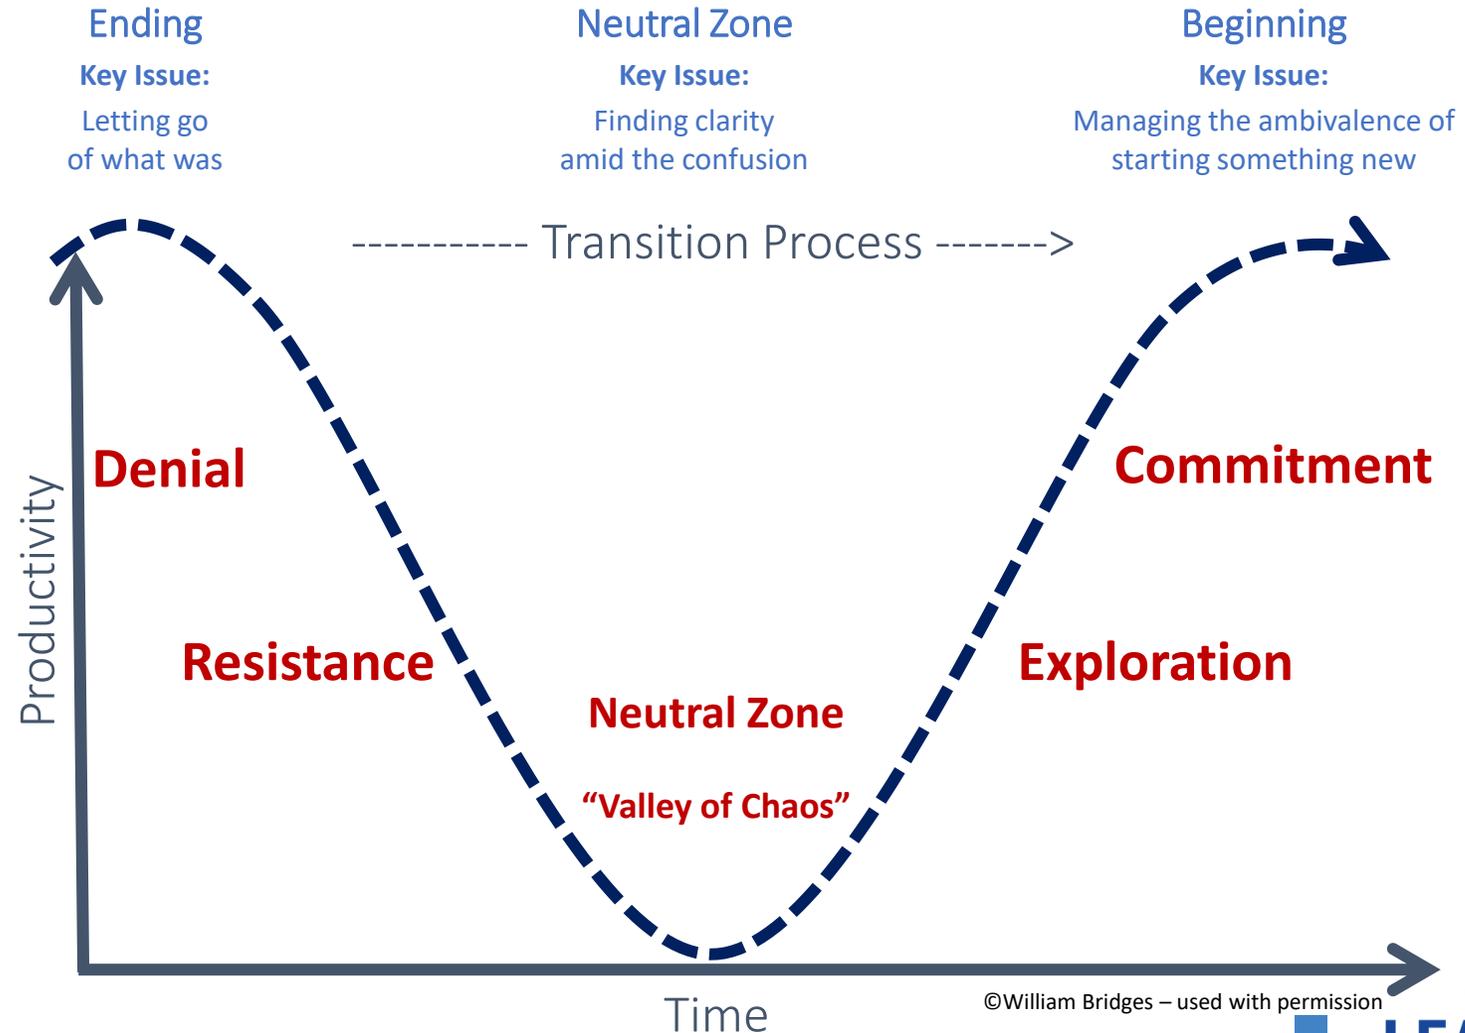

Positive outcomes in each area. Significant increase in both rugged and resource resilience.

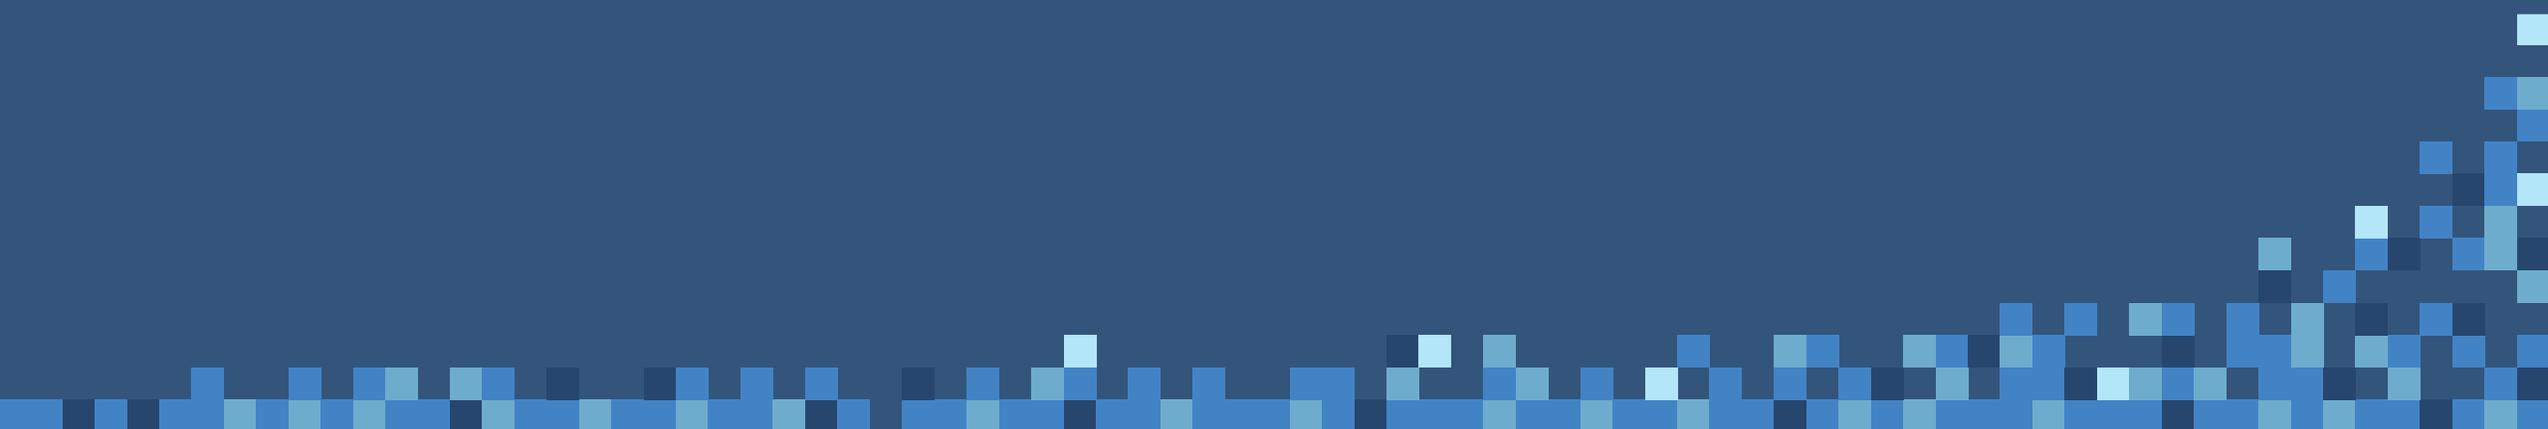

# Allow the organization to transition...

## What to do:

- Communicate the need
- Model the transition
- Enlist Change Agents
- Be vulnerable
- Track Engagement and adoption scores
- Reward those who explore early
- Help those in the Valley of Chaos.
- Do not give up

**So what now, leader?**

# What leaders need to do.

Open wide and say AAAAAA.....the 5 As.

1. Acknowledge the REAL problem – not COVID, but the three other contributors.
2. Accept the need to do something about resilience in the organization and why.
3. Adapt and transition, holistically.
4. Act as role models and recognize others doing the same.
5. Allow the organization to transition.

Breakout: What is one thing you can do to help your organization become more resilient?

What is one thing you can do to help your organization become more resilient?
